OUR SPA PARTNERS.

ila

ila is named after the Hindu goddess of truth and the Sanskrit word for mother earth and was launched at the beginning of 2008, with all products handmade and blended in the Cotswolds.

Their vision is to create a range of highly potent and sacred products, which channel the raw remedial power of nature, using the most ancient and purest sources of energy – plants, flowers, and herbs - and proving that results-driven products and spa treatments can go hand-in-hand with the highest standards of natural and ethical integrity.

ila products and treatments are designed to promote palpable biological and emotional change in those that experience them – both through touch and smell.

Natural Spa Factory

Natural Spa Factory was started by husband and wife team, Jeremy and Emma in 2009.

Incredible home-grown products created in the heritage city of Bath, all of Natural Spa Factory's quintessentially plant based skincare is cruelty free, gender neutral and suitable for every body.

These botanically sourced products are derived by nature, like herbs, plants and flowers, because being kind and nurturing to your skin is vital to a healthy body and soul and will leave you feeling fabulous.
